

A PCA plot showing the first two principal components (PC1 and PC2) of a dataset. The x-axis is labeled 'PC1: 69% variance' and the y-axis is labeled 'PC2: 25% variance'. The plot features a grid and several data points represented by different symbols and colors. The symbols include triangles, circles, a plus sign, and a square. The colors include green, yellow, purple, red, blue, and cyan. The points are distributed across the plot, with some clusters and some outliers.

Symbol	Color	PC1 (approx.)	PC2 (approx.)
Triangle	Green	10	95
Triangle	Green	10	90
Triangle	Yellow	-10	85
Triangle	Yellow	-10	80
Circle	Yellow	10	80
Circle	Yellow	10	78
Triangle	Purple	-15	65
Triangle	Purple	-15	62
Plus	Blue	-15	58
Triangle	Red	-20	45
Circle	Red	-10	45
Circle	Green	10	45
Circle	Green	10	42
Square	Cyan	70	-10
